ideal for you and your life. This baffled Junior. To the best of his recollection, during the weeks that Seraphim had come to him for physical therapy, she had never mentioned an older sister or any sister at all. "Yes. More about that later, just let me make it clear that an interest in physics doesn't make me a physicist. Even if I were, I couldn't explain quantum mechanics in an hour or a year. Some say quantum theory is so weird that no one can fully understand all its implications. Some things proven in quantum experiments seem to defy common sense, and I'll lay out a few for you, just to give you the flavor. First, on the subatomic level, effect sometimes comes before cause. In other words, an event can happen before the reason for it ever occurs. Equally odd ... in an experiment with a human observer, subatomic particles behave differently from the way they behave when the experiment is unobserved while in progress and the results are examined only after the fact-which might suggest that human will, even subconsciously expressed, shapes reality." almost recoiled in disgust. She held the newborn so that its mother could look into. Number three on the charts was "Mr. Lonely," by Bobby Vinton, an American talent from Canonsburg, Pennsylvania. Junior sang along. The previous April, the lads from Liverpool had claimed all five of the top five. Real Americans, like the Beach Boys and the Four Seasons, were forced to settle for lower numbers. It made you wonder who had really won the Revolutionary War. Beautiful she was, both of face and form, even with her mouth gaping wide and her eyes rolled back in her skull. How bright her future might have been if she had not chosen to deceive. A tease was, in essence, a deceiver-promising what she never intended to deliver. Celestina rose, heart suddenly clumping in her breast, like heavy footsteps hurrying away from an approaching bearer of bad news, but she herself couldn't run, could only stand rooted in her hope-and hear in her mind six versions of a bleak prognosis in the two seconds before the doctor actually spoke. Junior no longer leaned casually on the casing. He put both hands flat against the door. Twilight, nearly gone and purple in the west, inspired a bright violet line along the crest of an incoming bank of bay fog, as though the mist were shot through with a luminous vein of neon, transforming the entire sparkling city into a stylish cabaret just now opening for business. The night, soft as a woman come to dance, carried a steely blade of cold in its black-silk skirts. Inking? The sequined and tasseled hat of fame was too gaudy for her; she was a minister's daughter, from Spruce Hills, Oregon, more comfortable in a baseball cap. Agnes dropped to one knee before the boy and held him gently by the shoulders. "Let me look." He desperately needed closure in the matter of Naomi's death. That was what these past three years and these supernatural events were all about. Meanwhile, before they needed to plan the wedding, there was time for an orange soda and a root beer, and more of Dr Jekyll and Mr Hyde. The paramedic pumped the inflation cuff of the sphygmomanometer, and Junior's blood pressure was most likely high enough to induce a stroke, driven skyward by the thought that Naomi's love had been a lie. From Christmas through February, he dated a beautiful stock analyst and broker-Tammy Bean-who specialized in finding value in companies that had rewarding relationships with brutal dictators. Retracing his path across the kitchen, he caught a faint whiff of jasmine from the backyard. Funny, jasmine here inside. Two paces later, he felt a draft. On other nights, she had overheard this and been touched. On this Christmas Eve, however, it filled her with wonder and wondering, for she recalled their conversation earlier, at Joey's grave. The ship of night floated over the city and cast down nets of darkness, gathering millions of lights like luminous fishes in its black toils. He went upstairs to change out of his dark blue suit and badly scuffed black shoes. Reluctantly, Jacob finally returned the cards to the packs and admitted to himself that superstition had seized him and would not let go. Somewhere in the world was a knave, a human monster-even worse, according to Maria, a man as fearsome as the devil himself-and for reasons unknown, this beast wanted to harm little Barty, an innocent baby. By some grace that Jacob could not understand, they had been warned, through the cards, that the knave was coming. They had been warned. Soon he dispensed with picture books and progressed to short novels for more accomplished readers, and then rapidly to books meant for young adults. Tom Swift adventures and Nancy Drew mysteries captivated him through the summer and early autumn. Turning his patched eyes in the general direction of his mother, Barty said, "Oops." twenty-eight pounds. Typically, seven to eight pounds of this is the fetus. The placenta and the amniotic fluid weigh three pounds. The remaining eighteen are due to water retention and fat stores. under the spoon to catch drips, she conveyed the shimmering sliver to Agnes's mouth. When she tried to say bow, the how of speech eluded her, and she sat as mute as if no words had ever passed her lips before. Escorting her home didn't require either a car or a long walk, because she lived upstairs in the hotel where he'd had dinner. The top three floors of the building featured enormous owner-occupied apartments. Paul set the nightstand down but waited, ready to shove the furniture into the stairwell if the swaddled gunman dared return. Junior Cain was committed to continuous self-improvement. He believed in the need constantly to expand his knowledge and horizons order to better understand himself and the world. The quality of life was solely the responsibility of oneself he author of How to Have a Healthier Life through Autohypnosis was Dr. Caesar Zedd, a renowned psychologist and best-selling author of a dozen self-help texts, all of which Junior owned in addition to the literature that he had acquired from the book club. When he had been only fourteen, he'd begun buying Dr. Zedd's titles in paperback, and by the time he was eighteen, when he could afford to do so, he'd replaced the paperbacks with hardcovers and thereafter bought all the doctor's new books in the higher-priced editions. The collected works. Gradually, she perceived that Lipscomb was more troubled than he should have been, considering that his patient had died through no fault of his own. She thought of herself as a creative person, a capable and efficient and committed person, but she did not think of herself as a strong person. Yet she would need great strength for what lay ahead. Sitting in the client's chair, across the cigarette-scarred desk from Nolly, Junior heard or imagined that he heard the scurry of tiny rodent feet behind him, and something chewing on paper inside a pair of rust spotted filing cabinets. Repeatedly, he wiped at the back of his neck or reached down to rub a hand over his ankles, convinced that insects were crawling on him. Upon arriving at the creche window, he had been in a buoyant mood. As he studied the quiet scene, however, he grew uneasy. Visibly nonplussed by Junior's blithe failure to terminate the handshake when the shaking stopped, the fussy Neddy didn't want to be so rude as to yank his hand loose, or to cause a scene regardless of how small, but Junior, smiling and pretending to be as socially dense as concrete, failed to respond to a polite tug. So Neddy waited, allowing his hand to be held, and his face, previously as white as piano keys, brightened to a shade of pink that clashed with his red boutonniere. Angel returned to the table for apple juice and to announce, "They got a cookie-jar Jesus!" After taking a minute to steel himself, Junior squatted next to the dead detective. Pain again, but not a mere contraction. Such an excruciation, unendurable. The hobnailed wheels ground through her once more, as though she were being broken on a medieval torture device. "Honey," she said, crouching to peer at him through the vertical slats of the playpen, "what're you doing?" As if he'd been presented with many previous photos under these circumstances, Jonas Salk accepted the picture. "Your daughter?" Kathleen Klerkle, Mrs. Wulfstan, sitting on the edge of Nolly's desk, looked diagonally across

it at the visitor in the client's chair. Actually, Nolly had two chairs for clients. Kathleen could have sat in the second; however, this seemed to be a more appropriate pose for a hawkshaw's dame. Not that she was trying to look cheap; she was thinking Myrna Loy as Nora Charles in *The Thin Man*-worldly but elegant, tough but amused..Glaring and red-faced, lowering his voice almost to a whisper, Neddy said, "I'm sorry, but you've got me all wrong. I'm not like Renee and you." "So entertaining, I felt I should have paid for those seats. When the third machine starts whizzing coins at him, he bolts like a kid running a graveyard at midnight on a dare." Nolly laughed, remembering..He told her that he loved her, and she slipped away upon his words. As she went, the haggard look of the terminal leukemic patient passed from her, and before the gray mask of death replaced it, he saw the beauty he had preserved in memory when he was three, before they took his eyes, saw it so briefly, as if something transforming welled out of her, a perfect light, her essence..1969 through 1973: the Year of the Rooster, chased by the Year of the Dog, followed fast by the Pig, faster by the Rat, with the Ox passing in a stampede pace. Eisenhower dead. Armstrong, Collins, Aldrin on the moon: one giant step on soil untouched by war. Hot pants, plane hijackings, psychedelic art. Sharon Tate and friends murdered by Manson's girls seven days before Woodstock, the Age of Aquarius stillborn, but the death unrecognized for years. McCartney split, Beatles dissolved. Earthquake in Los Angeles, Truman dead, Vietnam sliding into chaos, riots in Ireland, a new war in the Middle East, Watergate..As Sklent so insightfully put it: Some of us live on after death, survive in spirit, because we are just too stubborn, selfish, greedy, grubbing, vicious, psychotic, and evil to accept our demise. None of those qualities described sweet Naomi, who had been far too kind and loving and meek to live on in spirit, after her lovely flesh failed. Now at one with the earth, Naomi was no threat to Junior, and the state had paid for its negligence in her death, and the whole matter should have been brought to closure. There were only two barriers to full and final resolution: first, the stubborn, selfish, greedy, grubbing, vicious, psychotic, evil spirit of Thomas Vanadium; and second, Seraphim's bastard baby--little Bartholomew..The time had come for him to think more seriously about his situation and his future. Self-improvement remained a laudable goal, but his efforts needed to be more focused..Fortunately, just as he was about to declare his gut feelings to his superior and risk dismissal, he saw his potential patient. At fifteen, Seraphim was breathtakingly beautiful, in her own way as striking as Naomi, and instinct told Junior that the chance of being physically or morally polluted by her was negligible..Otter said nothing..The Finder.Nolly, telling the story of his day's work, paused as the waiter delivered two orders of the crab-cake appetizer with mustard sauce. "Nolly, Mrs. Wulfstan--enjoy!".Magusson considered the assaults on Victoria and on Vanadium to be hideous crimes, of course, but he also viewed them as affronts to his own dignity and reputation. He expected a felonious client, rewarded with four and a quarter million instead of jail time, to be grateful and thereafter to walk a straight line..This bond between the Lampion and White families, which Grace had already heard about from Paul, came as news to Celestina as much as to Agnes. It inspired more reminiscences of lost husbands and the wistful wish that Joey and Harrison could have met..While Jacob had shuffled, Agnes had taken little Barty from his bassinet into her arms. She was surprised and discomfited to discover that the baby was to have his fortune told first..For a while he thought the fear would end only when he perished from it, but eventually it faded, and in its place poured forth self-pity from a bottomless well. Self-pity, of course, is the ideal fuel for anger; which was why, pursuing the Buick through fog, climbing now toward Pacific Heights, Junior was in a murderous rage. By the time he reached Cain's bedroom, Tom Vanadium recognized that the austere decor of the apartment had probably been inspired by the minimalism that the wife killer had noted in the detective's own house in Spruce Hills. This was an uncanny discovery, troubling for reasons that Vanadium couldn't entirely define, but he remained convinced that his perception was correct..Alone with Paul, as he stood abashed, she removed her blouse and bra and, with arms crossed over her breasts, revealed to him her savaged back. Whereas her father had used open-hand slaps and hard fists to teach his twin sons the lessons of God, he preferred canes and lashes as the instruments of education for his daughter, because he believed that his direct touch might have invited sin. Scars disfigured Agnes from shoulders to buttocks, pale scars and others dark, crosshatched and whorled..Opening his eyes, still not daring to meet Victoria's gaze, Junior knew she had registered and properly interpreted his response to her seductive spooning. She had frozen, the utensil in midair, and her breath had caught in her throat. She was thrilled..cocktail lounge to be her personal pickup spot. Naturally, people who worked the lounge knew her, were friendly with her. They would remember any man who accompanied the heiress to her penthouse.."A wonderful wedding," Celestina promised her, taking a pair of pajamas from a dresser drawer..From her reading, she knew that amniotic fluid should be clear. A few traces of blood in it should not necessarily be alarming, but here were more than traces. Here were thick red-black streams..At last: the humiliating backless gown, the precious drugs, even a pretty nurse who seemed to like him, and then oblivion..In the dark dumpster, tormented by ceaseless torrents of what-ifs, convinced that the spirit of Vanadium was going to slam the lid and lock him in with a revived corpse, Junior had for a while been reduced to the condition of a helpless child. Paralyzed by fear, withdrawn to the corner of the dumpster farthest from the putrefying pianist, squatting in trash, he had shaken with such violence that his castanet teeth had chattered in a frenzied flamenco rhythm to which his bones seemed to knock, knock, like boot heels on a dance floor. He had heard himself whimpering but couldn't stop, had felt tears of shame burning down his cheeks but couldn't halt the flow, had felt his bladder ready to burst from the needle prick of terror but bad with heroic effort managed to refrain from wetting his pants.."And to the north of us," Agnes said, drawing him out, "Janey Carter went off to college last year, and she's their only child." "Maybe it's not where the heart is," Wally corrected himself. "Maybe it's where the buffalo roam." Whether making love or killing, he was never guided by bigotry. A private little joke with himself. But true..In the living room stood a Christmas tree, and under the tree lay prettily wrapped presents. Junior enjoyed opening all of them, but he didn't find anything he wanted to keep..obsessed with humanity's sorry penchant for destroying itself either by intention or ineptitude--491 suffocated and burned alive on an evening meant for champagne and revelry..Memory of the Spartan decor of Thomas Vanadium's house lingered with Junior, and he addressed his living space with the detective's style in mind. He installed a minimum of furniture, though all new and of higher quality than the junk in Vanadium's residence: sleek, modern, Danish-pecan wood and nappy oatmeal-colored upholstery..Library of Congress Cataloging-in-Publication Data Le Guin, Ursula K., 1929-. Junior was accustomed to having women seduce him. His good looks were a blessing of nature. His commitment to improving his mind made him interesting. Most important, from the books of Caesar Zedd, he had learned how to be irresistibly charming..Celestina extended her left hand, which shook so badly that she nearly knocked over both their wineglasses. "I will." He thought he heard the tick-scrape-rattle-clink of Industrial Woman on the prowl. In the living room. Now the hall. Approaching..On a morning in July, Junior was visiting the public library, poring through the stacks in search of exotic volumes on the occult, when the phantom voice rose nearby. Here, the

singing sounded softer than in his apartment, little more than a murmur, and also threadier..Through the big window beyond her, the charry branches of the massive oak tree formed a black cat's cradle against the sky, leaves quivering slightly, as though nature herself trembled in trepidation of what Junior Cain might do..Eventually he put the quarter on the nightstand, switched off the lamp, and slipped into bed.
