Kennedy, whose portraits hung side by side, the girl revealed to their mom and dad what had been done to her and also what, in her despair. Her voice was soft, almost a whisper, and charged with anxiety; but under other circumstances, it would have been sexy. Celestina wanted nothing to do with it, was offended by the very sight of it, and she. "I'm going to recommend that you be admitted overnight and that we lance these under hospital conditions. We'll use a sterile needle on some of them, but a number are so large they're going to require a surgical knife and possibly the removal of the carbuncle core. This is usually done with a local anesthetic, but in this instance, while I don't think general anesthesia will be required, we'll probably want to sedate you that is, put you in a twilight sleep." Not a word of that would come to Paul, but his frustrating speechlessness might have been for the best. From everything he knew about this hero, such effusive praise would embarrass him. During the five years following Agnes's death, their family of many names thrived. Barty and Angel had brought them all together in this place fifteen years previously, but the destiny about which Toni had spoken on the back porch, that night in the rain, seemed to be in no hurry to manifest itself. Barty could find no painless way to sustain secondhand sight, so he lived without the light. Angel had no reason to shove anyone else into the world of the big bugs, where she'd pushed Cain. The only miracles in their lives were the miracles of love and friendship, but the family remained convinced of eventual wonders, even as they got on with the day at hand. "Maybe he's a character I saw in a movie or read in a novel. I'm a member of the Book-of-the-Month Club. I'm always reading one thing or another. I don't remember a character named B-Bartholomew, but maybe I read the book years ago." Junior was tempted to experiment with the controls. Maybe other messages were recorded on the machine. Listening to them would be delicious—even if every one of them turned out to be as meaningless to him as Max's—a little like browsing through a stranger's diary. Holding a shaker in each hand, Tom walked them forward, causing them to diverge slightly at first, but then moving them along exactly parallel to each other. "No. The information I gave you came from the coroner's office, which issued the death certificate. But even if I got into St. Mary's records, there wouldn't be a hint of where Catholic Family Services placed this baby." "When I couldn't get enough nightclub and theater bookings for my magic act anymore ... I turned to gambling." "That's unusual, too, and I wish the etiology of this disease, which is exceedingly well understood, gave us reason to hope based on the transience of the symptoms ... but it doesn't." Between the one-line description of the baklava and the menu's more effusive words about the walnut mamouls, the suspense became too much, the doubt too insidious, at which point Celestina looked up and said, with more girlish angst in her voice than she had planned "Maybe this isn't the place, maybe it isn't the time, or maybe it's the time but not the place, or the place but not the time, or maybe the time and the place are right but the weather's wrong, I don't know—Oh. She continued: "When we don't allow ourselves to hope, we don't allow ourselves to have purpose. Without purpose, without meaning, life is dark. We've no light within, and we're just living to die." Great anger was apparent in the way that the uneven, red block letters had been drawn on the wall in hard slashes. But the lettering looked like the work of a calm and rational mind compared to what had been done after the three Bartholomeus were printed. So that my mind could move about among the years and centuries without getting things all out of order, and to keep contradictions and discrepancies at a minimum while I was writing these stories, I became (somewhat) more systematic and methodical, and put my knowledge of the peoples and their history together into "A Description of Earthsea." Its function is like that of the first big map I drew of all the Archipelago and the Reaches, when I began to work on A Wizard of Earthsea over thirty years ago: I needed to know where things are, and how to get from here to there—in time as well as in space. Having settled on the sofa with Agnes and Barty, prepared to serve comfortably in the role of quiet observer, Edom was alarmed to have suddenly become the subject of conversation. He was also alarmed to be called "son," because in his thirty-six years, the only person ever to have addressed him in that fashion had been his father, dead for a decade yet still a terror in Edom's dreams. The door was falling shut. With no more sound than the day makes when it turns to night, the detective had gone. Hers were the most feminine hands he'd ever seen. Slender, soft, prettier than Naomi's. He had no idea what she was talking about. Ashamed and scared, she told no one. Although a victim, she blamed herself, and the prospect of being exposed to ridicule so horrified her that despair got the better of good judgment. "Sure. There's lots of places where he didn't get shot, but there's places where he got shot and died, too." Vanadium was surely unaware of any connection between Junior and Seraphim White. And now the girl could never talk. Eventually, when he had gone through the entire directory, if he'd had no success, he would phone each red-checked listing and ask for Bartholomew. A few hundred calls, no doubt. Some would involve long-distance charges, but he could afford the toll. A quick survey of the lavatory floor. The musician hadn't left anything behind, neither a popped button nor crimson petals from his boutonniere. "Crafty men need to stick together," he said. "Men who have no art at all, nothing but wealth—they pit us one against the other, for their gain not ours. We sell em our power. Why do we? If we went our own way together, we'd do better, maybe." The most shameful thing Junior found was the "art" on the walls. Tasteless, sentimentalized realism. Bright landscapes. Still lifes of fruit and flowers. Even an idealized group portrait of Prosser, his late wife, and Zelda. Not one painting spoke to the bleakness and terror of the human condition: mere decoration, not art. "Don't worry," Celestina told him, "after what we've seen this past week, we're still with you." Earlier, after sprinting down the fire road, he had been breathing hard when he reached his Chevy, and by the time that he'd raced to Spruce Hills, the nearest town, he had spiraled down into this strange condition. His driving became so erratic that a black-and-white had tried to pull him over, but by then he was a block from a hospital, and he didn't stop until he got there, taking the entry drive too sharply, jolting across the curb, nearly slamming into a parked car, sliding to a stop in a no-parking zone at the emergency entrance, lurching like a drunkard as he got out of the Chevy, screaming at the cop to get an ambulance. Fascinated by this strange new realm, Angel returned to her chair periodically, between explorations, to sip

apple juice and to reveal her latest discoveries: "They got yellow shelf paper. They got potatoes in a drawer. They got four kinds of pickles in the refrigerator. They got a toaster under a sock with pictures of birds on it." What might have become a waiting game of epic duration was ended when the door to the room swung inward, and a doctor in a white lab coat entered from the corridor. He was backlit by fluorescent glare, his face in shadow, like a figure in a dream. Those ominous words again, turning through his memory, reel to reel. This time he actually heard them spoken. The voice commanded minded attention with a deeper timbre and crisper diction than his own. From Joey's closet, she extracted an old blue blazer that he seldom wore anymore. The lining was sagging, worn. Vanadium was no ordinary cop, as he himself had said. In his obsession, convinced that Junior had murdered Naomi and impatient with the need to find evidence to prove it, what was to stop the detective if he decided to deal out justice himself? What was to prevent him from walking up to the Suburban right now and shooting his suspect pointblank? Aftermath had a way of being discovered, often at the worst of all possible moments, which he had learned from movies and from crime stories in the media and even from personal experience. Discovery always brought the police at high speed, sounding their sirens and full of enthusiasm, because those bastards were the most past-focused losers on the face of the earth, utterly consumed by their interest in aftermath. The guesswork of a wizard is close to knowledge, though he may not know what it is he knows. The first sign of Otter's gift, when he was two or three years old, was his ability to go straight to anything lost, a dropped nail, a mislaid tool, as soon as he understood the word for it. And as a boy one of his dearest pleasures had been to go alone out into the countryside and wander along the lanes or over the hills, feeling through the soles of his bare feet and throughout his body the veins of water underground, the lodes and knots of ore, the lay and interfolding of the kinds of rock and earth. It was as if he walked in a great building, seeing its passages and rooms, the descents to airy caverns, the glimmer of branched silver in the walls; and as he went on, it was as if his body became the body of earth, and he knew its arteries and organs and muscles as his own. This power had been a delight to him as a boy. He had never sought any use for it. It had been his secret. AT ST. MARY'S HOSPITAL, where Wally had brought Angel into this world three years ago, he was now fighting for his life, for a chance to see the girl grow and to be the father she needed. He'd been taken to surgery already when Celestina and Angel arrived a few minutes behind the ambulance. "No, I don't see it," Chicane repeated. "There's no benefit to a meditation marathon. Twenty minutes is enough, man. Half an hour at the most. You relied on your internal clock, didn't you?" At the bed, he spread the garment across his pillow. Lying down, he pressed his face into the sweater. The sweet subtle scent of Naomi was as effective as a lullaby, and soon he dozed off. Ordinarily, when Celestina was troubled, her art was a perfect sanctuary from all woes. When she was planning, composing, and rendering, time had no meaning for her, and life had no sting. "Sure they do," Barty said. "But I think Maria embroidered the birds just because they were pretty." During the past week, Junior had undertaken quiet background research on the prestidigitator with a badge. The cop was unmarried. He lived alone, so this bold visit entailed no risk. Speaking of bosoms, everywhere in the loft were braless girls in sweaters and miniskirts, braless girls in T-shirts and miniskirts, braless girls in silk-lined rawhide vests and jeans, braless girls in tie-dyed sash tops, with bared midriffs, and calypso pants. Lots of guys moved through the crowd, too, but Junior barely noticed them. Someone named Bartholomew had adopted Seraphim's son and named the boy after himself Junior applied the patience learned through meditation to the task at hand, and instinctively, he soon evolved a motivating mantra that continuously cycled through his mind while he studied the telephone directories: Find the father, kill the son. She also sought forgiveness for the hardness with which she had treated Nicholas Deed. Three equally modest rooms opened off this lounge. Two housed complete dental units, and the third provided cramped office space shared by the receptionist and the doctor. No elevator. He didn't have to worry that with no more warning than a ding, doors might slide open, admitting witnesses into the hall. In addition to these scavengers, another presence was here, unseen but not unfelt. The chill of this invisible entity pierced Junior to the marrow: the stubborn, vicious, psychotic, prickly-bur spirit of Thomas Vanadium, maniac cop, not satisfied to haunt the house in which he'd died, not ready yet to seek reincarnation, but instead pursuing his beleaguered suspect even after death, capering--to paraphrase Sklent like an invisible, filthy, scabby monkey here on this city street, in bright daylight. He closed his eyes to know the kitchen as Barty knew it. The fine aromas, the musical clink of spoons, the tinny rattle of pans, the liquid swish of a stirring whisk, the heat from the ovens, the women's voices: Gradually, denying himself sight, he was aware of his other senses sharpening.
