"The bullet didn't actually penetrate her head," Micky said. Colman looked away in exasperation. She could have been a unique, thinking person. Instead she chose to be a doll, shaped and molded by everything she saw and heard around her. It was all around him--half the people he could see were in the chorus line behind Stormbel's puppet show. They could be told what to think because they didn't want to think. Suddenly he remembered all the reasons why he had cooled things with Anita months ago, when he -had been toying seriously with the idea of making their relationship contractual and settling down as Hanlon had. He had tried to tune into her wavelength and found nothing but static. But what had infuriated him more was that her attitude had been necessary--she had a head but wouldn't use it. She shivered at the thought and got up from the sofa to find Bernard. No doubt he would be in the basement room that he and Jay had made into a workshop to supplement the village's communal facility. Bernard had been taking more interest in Jay's locomotive lately than he had on the Mayflower II. Jean suspected he was doing so to induce Jay to spend more time at home and allay some of the misgivings that she had been having. But his enthusiasm hadn't prevented Jay from going off on his own into Franklin, sometimes until late into the evening, after spending hours in the bathroom fussing with his hair, matching shirts and pants in endless combinations with a taste that Jean had never known he had, and experimenting with neckties, which he'd never bothered with before in his life unless told to. Whatever he was up to, Marie at least, mercifully, was managing to occupy herself with her own friends and to stay inside the complex. "The woman is either nuts or higher than a Navajo shaman with a one-pound-a-day peyote habit." "Oh, Christ Wearily, Colman brought a hand up to his brow. "Okay. Under a parking-lot arc lamp. sink. She had turned out to be a very shapely redhead by the name of Veronica, and she lived in an apartment in the Baltimore module. In fact her face was not unfamiliar, but before then Colman hadn't known who she was. She had seemed as intrigued by Colman as he by her when they talked by the bar earlier in the evening. "Sure, I've been there," he had told her in reply to a question that she had asked with a devilish twinkle in her eye. "There aren't many-places you don't get to visit sooner or later in twenty years." wardrobe. "Why don't you?" As Director of Liaison, Kalens headed the diplomatic team charged with initiating relationships with the Chironian leaders and was primarily responsible for planning the policies that would progressively bring the colony into a Terran-dominated, nominally joint government in the months following planetfall. Hence the question probably concerned him more than anybody else. Kalens took a moment to compose his long, meticulously groomed and attired frame, with its elegant crown of flowing, silvery hair, and then replied. "I agree with John that a rigid rule needs to be asserted early on . . . possibly it could be relaxed somewhat later after the Chironians have come round. However, Mark has a point too. We should avoid the risk of hostilities if we can, and think of it only as a last resort. We're going to need those resources working for us, not against. And they're still very thin. We can't permit them to be frittered away or destroyed. Perhaps the mere threat of force would be sufficient to attain our ends --without taking it as far as an open demonstration or resorting to clamping down martial law as a first measure." Ordinarily, he would be reluctant to damage the property of another in this fashion. But serial killers. level then, but I understood the implications, anyway. Lechat Eked. came at hand; half measures were fatal. The shorter-term price to be paid was regrettable, but when had Nature ever offered free lunches? And in the longer term, what did it mean anyway? The Soviets had taken twenty million casualties in World War II and emerged to fight World War III three-quarters of a century later. And in that conflict the U.S. had lost an estimated hundred million, yet had restored itself as a major power in less than half the time. At best the sentimentalities of politicians and misguided idealists underestimated the resilience of the race, and at worst, by tempting aggressors with the lure of easy pickings, precipitated the very wars that they deplored. Would Hitler have rampaged so blithely across Europe if Chamberlain had gone to Munich with ten wings of heavy bombers standing behind him across the English Channel? And when all the hackneyed words were played and spent, hadn't everything worthwhile in history been gained in the end by its generals? when he entered or acknowledge his presence when he rounded the bed and stood gazing down at her. cloud of dust and a powder of dead grass pulverized by a summer of hammering sun. "If I were you, I wouldn't invite him to dinner. By the way, he doesn't know I'm here. He wouldn't allow. Apparently some of Padawski's friends had the idea that the Chironian women were among the things that could be had for the taking on Chiron, and two of them had persisted in

pressing lewd advances upon the two girls at the bar despite their being told repeatedly and in progressively less uncertain terms that the girls weren't interested. The soldiers, who had been drinking heavily, became angry and even more unpleasant, paying no attention to dour warnings from around the room. An argument developed, in the course of which Rameley grabbed one of the women and handled her roughly. She produced a gun and shot him in the leg. There would probably have been no more to it than that if Wilson hadn't seized the gun and turned it on the Chironians who were about to intervene, at which point another Chironian had shot him dead from the back of the room..This is how the motherless boy understands the current theory of bitumen deposits in general and."So where do we go from here?" The two populations could not simply be left to collide with each other in the hope that an equilibrium would establish itself. Something, somewhere, would blow up before that happened..Bernard looked at Lechat. Lechat frowned and seemed about to object. Then he thought some more about it and, in the end, sighed, showed his empty palms, and nodded. Bernard turned back to Jay. "Okay, see what you can do. If you do find him, ask him to get over here as soon as he can make it.".Worse: If he's in custody, those vicious hunters who killed his family?and the Hammond family,."How else could it be?" "Don't you want to come along?" Bernard asked Jean. "It would get you out and give you a break.". "Very wise, Sergeant. But then, some of them can be very discreet. Theoretically speaking, that would put them in a rather different category, don't you think?". "A phase-change, evolving its own new laws," Pernak confirmed, nodding..As Chazurez finished speaking, an indicator announced an incoming call from the Government Center. The screen in front of Stanislaw was showing the day's duty roster for the entire infantry brigade..Many businesses were closed now, at 9:20 on a Tuesday night..Kath watched in silence for a second or two but for some reason seemed to find the situation amusing. Bernard stared with a mixture of uncertainty and resentment. "I think I know what's going through your mind," she told him. "But don't worry about it. We don't take orders from Farnhill or Merrick here. Hoskins doesn't have a lot of experience with high-flux techniques yet, and Walters is good but careless with details. He unslung the backpack and fished inside the flap, which he hadn't bothered to fasten. "I bumped into a couple of guys from school, and we thought maybe we'd get out and see some of the country with some Chironians we met. There's a lot more of it around here than inside the GC module. So I got these."
