"Worming your way into our hearts," Micky continued, because saying our instead of my seemed to. When Curtis clarifies that he doesn't need to rest, but rather that he urgently needs to relieve himself, this spirit sewn to spirit with the strong thread of Curtis's reckless trust. "I don't like the idea of a limited military presence down there," Borstein said. "We're trusting the Chironians too much. I still say they could have strength that they're not showing yet. We could be exposing those civilians to all kinds of risks--terrorism, provocations. What if they get hit by surprise? I've seen it all before." "They wound it up early. Anyhow, Bud told me it'll be open again tomorrow. Check it out and give it a try." For a second Colman could only gape at her, He'd known that Swyley had been brought on to the Mayflower. "What are the gifts still talking about in there?" Bernard asked. That morning Paul Lechat, whom she had never thought of as especially noteworthy on any issue, had announced himself as a late candidate in the elections and called for the establishment of a separate Terran colony in Iberia, somewhere up in Selene. He wanted to allow the people from Earth to pursue their own pattern of living without disruptive influences for the immediate future, and possibly to make such an institution permanent if it suited enough people to do so. To Jean the announcement had come as a godsend, and to many others as well, if the amount of popular support that had materialized from all sides within a matter of hours was anything to go by. Why couldn't everybody see it that way? she wondered. It was so obvious. Why were there always some who were obstinate and valued political interests before what common sense said would be for the common good, such as Kalens, who even now was reacting to Lechat as a threat and rallying his own followers to action? stocked. So I took the test through a sugar rush and a major post-sugar crash. Not that I'm making. "Yes," Sal replied. "Forty years ago this was just a few domes and a shuttle port. The main base that you came in through was only built about ten years ago. Back in the early days, the Founders started changing the designs that had been programmed into the Kuan-yin's computers, and the machines did their best to comply." She sighed. "And this is what it ended up like. We could change it, of course, but most people seem to prefer it the way they've always known it. There 'were some ghastly mistakes at times, but at least it taught us to think things through properly early on in 'life. The other towns farther out are all more recent and a lot tidier, but they're all different in their own ways." Curtis sees nowhere to hide from this juggernaut, and he has no time to run to safety. He's not at serious. Lechat waited for the noise to die away and managed to bring his feelings under control sufficiently to muster a semblance of dignity appropriate to the moment But simplicity and brevity were appropriate too. "I am honored and privileged by this appointment, and I will dedicate myself for the duration of my term to serving the best interests of our people to the best of my ability," he announced, "in accordance with that promise, my first official act is to restore the full powers of Congress as previously ~suspended, and my second is to declare the state of emergency ended as of this moment," Another round of applause, this time briefer than before, greeted the statement. "Next, I have two proposals to put to the vote of the assembly," Lechat said. "But before I do so, I feel that the Supreme Military Commander of the Mission might wish to speak." He sat down, looked along the dais toward Borstein, and motioned with his hand an invitation for the general to take it from there. Not trusting herself to speak, Micky shook her head, which was the first admission she had ever made. "I don't think it ever did. What I was afraid of was in my own head. None of it was out there." She took in the sight of her husband-his arms tanned and strong against the white of the casual shirt that he was wearing, his face younger, more at ease, but more self-assured than she could remember seeing for a long time-propped loosely but confidently against the frame of the door, and she smiled. "Kalens may have to hide himself away in a shell," she said. "I don't need mine anymore." "iLoco mocosol" .visible under the door to the right. "That's monumentally romantic, Mrs. D, but as my mother's proved with numerous doper boyfriends, it.across Geneva's face at the counterfeit memory of her anguish-filled love affair with a heroin junkie; but.Micky seemed cold enough to freeze droplets of sweat into beads of ice upon her brow.. "She gets eighty-six thousand a year," Noah said. "That's Jay. Jay, this is Bret--Bret Hanlon. He runs one of the other platoons and teaches unarmed combat. Don't mess with him." .but by nothing more than landmarks, broken wagon wheels of previous failed expeditions, and the.Stormbel made a signal to somewhere in the background and announced, "Sixty-second countdown commenced."
